

DESIGN AND TECHNICAL THEATRE CERTIFICATE OF ACHIEVEMENT

The Design and Technical Theatre Certificate is designed to prepare students for occupational competency as a theatre technician, designer, or manager in educational, community, and resident theatre venues, as well as theme parks, television, and motion picture studios. Theatre technicians may work on set construction, theatrical carpentry, scenery, sound, lighting, costumes, makeup, props, and special effects.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Define and distinguish between commonly used theatrical terms applied to design and the technical elements of theatre production.
- Demonstrate and use basic skills in creating and organizing a design project from concept to execution.
- Demonstrate proficiency in the skills required for a technical theatre crew.
- Analyze a play script to create a costume design concept.
- Use makeup to interpret an author's characterization.
- Identify, define, and describe terminology commonly associated with theatrical lighting design and execution.
